Session 49
2 Channel Alpha Theta
Moir

Will try all the feedback options. Volume 15, Bear 60

Report
Slept well. Woke up at 5:30. Alert bit foggy, focused good and relaxed.

Observation
Fz - Pz Alpha 10 Theta 7 60 mins. Feels great. Straightened out his spine. Sensors fell off but reestablished the connection quickly.

Plan
Continue based on integration report.
